- Teamwork & leadership
- Problem-solving & analytical thinking
- Time management
- Creativity & Innovation
- Attention to detail

PROJECTS EXPERIENCE

FISCALIGN -NATIONAL BUDGET SIMULATION TOOL.

July 2025 | Security Analysis

Led a 5-member team to develop FiscAlign, a web-based national budget simulation tool for Sri Lanka. Designed and implemented an interactive UI using SvelteKit, Tailwind CSS and Chart.js. Integrated budget template creation, constraint alerts and dynamic visualizations with offline-first architecture. Coordinated Hybrid Agile tasks, managed deadlines and contributed to frontend and system architecture development.

WEB APPLICATION FOR FITNESS CENTER

March 2025 – April 2025

Developed a full-stack fitness center web application featuring role-based dashboards for Admin, Staff, and Customers. Built responsive and user-friendly interfaces using HTML, CSS, and JavaScript and integrated backend functionality with PHP and MySQL to handle registrations, scheduling, queries and payments in real time. Implemented secure authentication and session management while conducting functional, usability and performance testing to ensure reliability, accessibility and cross-device compatibility.

MOBILE APPLICATION - LUXEVISTA RESORT

April 2025

Developed a native Android application for LuxeVista Resort to enhance guest experience by enabling room and service bookings, managing reservations, implementing user authentication with personalized profiles, integrating a real-time database, designing intuitive UI/UX, providing notifications for promotions and events and ensuring quality through structured testing and documentation.

OBJECT ORIENTED SYSTEM - THE PAWS SHOP
September 2024 – November 2024

Developed an Object-Oriented system for "The Paws Shop" pet supply store, implementing cashier and manager functionalities. Applied core OOP concepts including classes, objects, inheritance, encapsulation, abstraction and polymorphism. Enabled viewing, adding and searching pet supplies, managing user accounts and storing data in files, with clear UML design and user documentation.

C++ PROGRAM - UPCOUNTRY WARRIORS
July 2024

Developed a C++ application for "Upcountry Warriors" baseball club to automate player and team management. Implemented structured programming concepts with modularized design, including player registration, team assignments, data storage with file handling, search and display functionalities and user login/logout. Prepared flowcharts, conducted testing and provided complete user documentation.

EDUCATION

- Higher Diploma in Computing and Software Engineering, Cardiff Metropolitan University (UK) - Completed
- G.C.E A/L and G.C.E. O/L – Yasodara Devi Balika Vidyala, Gampaha (Completed)

COURSES

- Full Stack Developer (Python) – University of Moratuwa – Following
- Full Stack Developer (Web Development) – University of Moratuwa – Following
- Software Quality Assurance – University of Moratuwa – Following
- Information Security – University of Moratuwa – Following
- International Diploma in Spoken English (Level 3) - OTHM
- London English Examination (Level1-11) (Distinction)
- Foundation in IT and Foundation in English - ESOFT Digital Campus
- Certificate in Information Technology - Welington College
- Certificate in Cyber Security - Welington College
- Certificate in Game Development - Welington College
- Certificate in Artificial Intelligence - Welington College
- Certificate in Entrepreneurship - Welington College
- Certificate in Human Resource Management - Welington College
- Certificate in Business Management - Welington College

VOLUNTEERING

- Deputy Head Prefect 2022/2023 – Yasodara Devi Balika Vidyalaya
- President of Science Association 2022/2023 – Yasodara Devi Balika Vidyalaya
